

Have an interest in Audio and Video Technology or Filming?

- This pathway will give you an idea about what employment is like in fields relating to audio video technology, script writing, and film production.
- Throughout the three courses of the pathway you will learn about employability skills, use of audio video equipment and computer programs.
- Students will be engaged in capturing live events, producing news stories about our North Paulding community, creating short films, and producing public service announcements and commercials.

Skills USA is a partnership of students, teachers and industry working together to ensure America has a skilled workforce. Skills USA helps each student excel. We provide educational programs, events and competitions that support career and technical education (CTE) in the nation's classrooms.

Skills USA is the Career Technical Student Organization (CTSO) for this pathway. Students will have opportunities to compete with other schools in the state and nationally. This CTSO also serves as a networking platform for students and offers scholarships for college.

AUDIO AND VIDEO TECHNOLOGY AND FILM PATHWAY

TEACHER: JEFFREY MORRIS
jrmorris@paulding.k12.ga.us

Technical Foundations of Production Course 1

This course prepares students for employment or entry into a postsecondary education program in the Audio and Video Technology career field.

Topics covered may include, but are not limited to: terminology, safety, basic equipment, script writing, production teams, production and programming, lighting, recording, editing, studio production, and professional ethics.

Commercial and Broadcast Production Course 2

The course topics include: planning, writing, directing and editing a production, field equipment functions, operational set-up and maintenance, advanced editing operations, studio productions, performance, audio/video control systems, production graphics, career opportunities, and professional ethics.

Short Film and Documentary Production Course 3

This course is designed to facilitate student-led projects under the guidance of the instructor. Students work cooperatively and independently in all phases of production.

Wolfpack Productions is the in-house production facility students will be learning in and is made up of our classroom space, broadcast studio and control room, and sound recording room.

Students will leave the pathway with a portfolio of completed work in production.
